

VACUCADDY

MULTI-FUNCTION WORKTABLE

VACUCADDY – THE LOW-COST, MOBILE WORKSTATION

IT'S THAT EASY ...

- take the mobile Vacucaddy directly to the work piece - particularly advantageous for localized, large work pieces
- easy operation guarantees perfect results
- instantly usable with no setting-up time
- improved ease of operation through ergonomically correct working height - the worktable and the three Vacuum Suction Pads are infinitely adjustable, the work-surface is moved horizontally
- fast and nondestructive vacuum chucking the workpieces (also in high-gloss surfaces)
- the three Vacuum Suction Pads are independently adjustable and includes additional axially rotatable, including vacuum pump
- unlimited possibilities with Vacucaddy
- the low purchase price and simple operation guarantee a quick return even
- rigid steel construction - high quality finish
- through the integrated power strip on the Vacucaddy can be connected portable machines (such as router, grinding and polishing machine, jig saw, etc.) and a vacuum cleaner
- electrical connection: Vacuum pump 230 volt, 1 phase, 50/60 Hz, including footswitch
